

Depth Sensor – Garmin NMEA2000 Adaptor

GARMIN
NMEA Transducer adaptor kit
010-11525-00

It is important to connect the green
and black wires together to 'switch
on' the depth TX

A+T SOV DEPTH

**IMPORTANT: ON SOV SERIAL NUMBERS PRIOR TO DECEMBER 2016
(SOxxB12xxxx) DO NOT CONNECT SCREEN TO SHIPS BATTERY 0V
GALVANIC DAMAGE CAN BE CAUSED BY INCORRECT WIRING**

All sensors sold December 2016 onwards have a capacitor between the
screen and the metal parts.

The Screen **MUST** be connected to 0V or ground to prevent noise and
provide correct operation
