A+T Warranty Policy – February 2021

All products ever made by A+T are warranted against defective manufacture or design for a period of five years from shipment.

1. This warranty is provided on a return to factory basis; the customer is responsible for returning the unit(s) to A+T in Lymington, UK and A+T is responsible for shipping these back to the customer.
2. The customer should first inform and then undertake any reasonable requests by A+T to ascertain the nature or details of any apparent defect before returning equipment.
3. A+T does not pay for technician time or any other cost for the diagnosing, repair and replacement of equipment.
4. A+T may at its sole option replace or repair any defective unit.
5. This warranty specifically excludes:-
 - a. Any item which has been damaged, mechanically, chemically, electrically or otherwise by the customer.
 - b. Any item which has been opened or modified
 - c. Any item which is water damaged by use beyond its specification. For instance, displays which have sustained significant periods under water or have been under water deeper than 1 m
 - d. Any items on a yacht which has been subject to lightning strike
 - e. BFD displays that have suffered from 'burn in' by being left for extended periods with a fixed data on the display showing or extended periods on maximum brightness
 - f. 3rd party equipment even if supplied by A+T
6. Excluded item may be returned for repair at A+T normal charged service charges and conditions.
7. Where customer's requirement needs a replacement item before the original can be returned, A+T will generally provide best endeavours to supply this, but is under no obligation to do so.
8. Nothing in these warranty conditions reduces or replaces a customer's statutory rights.
