

ATPSW52
is designed for
the harshest
environments

The Slimline Switch is designed to fit into the back of a mast box to link up to four A+T BFD displays with only two cables coming up the mast and into the mast bracket. Completely sealed, it is designed for the harshest environment and exposure to seawater.

It can be supplied for use with other Ethernet mast displays

- Supports 100 BASE-TX with 100 Mbit/s of throughput in each direction.
- Individual resetting fuses on each port
- Data activity lights on each port
- Dimensions:
 - Width: 95mm plus cable connections
 - Length: 120mm
 - Depth: 25mm
